Enjoy a spacious two-story home boasting a perfect blend of sophisticated design and everyday functionality! Featuring 4 beds, 3.5 baths and a second bedroom downstairs, you have plenty of space. Every secondary bedroom has its own walk in closet! Working from home was never so convenient with the private study. An impromptu friend gathering is a breeze in the upstairs gameroom. Be the host you always wanted to be in the gourmet kitchen with tons of counter space, a large island, stainless appliances, granite counter tops, and a central island. Retreat to the covered patio or master suite after a long day and let the stress melt away. You can see why it is a popular floorplan with over 3000 square feet of space! Complete with wood floors and a cozy fireplace, this home offers these great features and so much more.
